MARK HEWITT
CEO, ARGON 18

Athletes,

On behalf of the entire production team for this event, we welcome you to the 43rd edition of the Sail Challenge Montréal powered by Argon 18!

As triathletes, you are often asked why you chose this kind of challenge. Why train early, sleep little, and willingly endure discomfort? The answer lies in the determination you show every single day. Triathlon is not just a sport – it's a life story!

You never let the fear of failure hold you back. Remember: today's sweat is tomorrow's success. Every precise stroke in the water, every pedal stroke, every kilometer you run brings you closer to your goal. Your discipline is your greatest asset!

On Saturday and Sunday, September 12 and 13, you will not choose the easy path: you will choose victory over yourself! Triathlon is an individual sport, but success is a collective achievement!

Be proud of what you have accomplished. To succeed is to begin, to persevere, and to cross the finish line together. Thank you for being models of determination!

The accomplishment and success of this event would not be possible without the invaluable collaboration and unwavering commitment of our major partners: Sail, Argon 18 and the Parc Jean Drapeau.

Finally, we would like to express our deepest gratitude to the more than 500 dedicated volunteers who are part of our large family. Their generosity, energy, and enthusiasm are invaluable assets to the success of your triathlon.

Know that there is something more powerful than the will to win: the courage to begin!

Congratulations, and see you soon at your finish line!

FROM YOUR SAIL CHALLENGE MONTRÉAL TEAM!

CERTIFICATION

ÉCO

TQ ARGENT

Did you know that the SAIL Challenge Esprit Montréal triathlon powered by Argon 18 was awarded Silver ÉcoTQ certification in 2025?

First, let's explain what ÉcoTQ certification is.

It's an evaluation system based on five main criteria: human resources and land management, food, waste and energy management, environmental awareness and education, and lastly, transportation, travel and greenhouse gas (GHG) emissions.

We're extremely proud to announce that we met Triathlon Québec's environmental responsibility requirements for silver certification during our event last year.

The Écho-Logique consortium even recorded a 702 kg drop in waste between the 2019 and 2024 editions! With the goal of continually improving, we're updating our informative posters to better guide you through the organic waste collection process. Please follow the signs posted near the garbage, recycling and composting bins.

We will also be changing our water cups on the course to only cardboard cups.

Thank you to all those who took part in our green team survey on greenhouse gas emissions. We also encourage you to plan your travel to the 2026 event and come by bike, public transport, carpool or electric car.

We look forward to seeing you at the 2026 «Verte en couleur» edition!
